

California OES Weather Threat Briefing

Monday, May 31, 2021
9:00 AM PDT

Day 1 (Monday): Hot temperatures are expected statewide again today. The most significant impacts will be across Inland Region, but all regions have the potential to experience at least moderate heat risk impacts.

Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

05/31/21 - 06/06/21

Monday - Sunday

- Generally dry conditions are expected through the week, though isolated showers and thunderstorms are possible each afternoon across the mountains of Inland Region, especially Wednesday and Thursday
- Hot temperatures will continue over much of the state through the middle of the week, with widespread 90s or 100+ degree readings expected across the southern deserts as well as much of the Central Valley. Moderate to locally high heat risk is expected. Poor overnight recovery is also expected, especially Monday and Tuesday.
- Locally gusty winds of 25-40 mph and very dry conditions will produce elevated fire weather conditions each day, especially along mountain slopes
 - These winds will likely be strongest across the southern California mountains and deserts
 - This also includes some breezy offshore winds expected in northern coastal areas and surrounding mountains through Tuesday
